About Us

With Experience of 12+ Years & 250+ Projects, we have been serving our clients across the globe since 2009. In 2021, we upgraded to a Private Limited Company to bring the latest technologies blended with our own years of experience to add value to growth of the business owners.

We understand how complex it is to manage any business and we believe that, with the help of technologies and creative digital solutions, it's actually possible to make business processes and day-to-day operations much smoother.

Let's Make IT Simple!

Not just a tagline, but the centre of our working pattern and methodology. A simple yet much needed philosophy, to design a solution that is Simple and easy to use, easy to monitor, easy to upscale and easy to track business growth and staff performance.
